On January 22 St. Louis hosted an amazing event for military members in which 2,500 participated! NGOs from the entire nation were represented, as well as leading employer groups. MSCCN took center stage - literally and figuratively - when presenting our wildly successful, *Own the Ground You Walk On* three-hour seminar, in conjunction with Mrs. Linda McNabb's *Child Education Advocacy* seminar. "When I stepped onto the stage (and I mean stage) of the Touhill Performing Arts Center in St. Louis, I realized at that moment that MSCCN took an important turn around the media corner : MSCCN truly performs our mission on the world stage now. Growing a grass roots organization such as MSCCN for the last seven years keeps my Team and me so busy, we forget to enjoy the milestones of such an event. Yes, MSCCN performs on the world stage now - and no other organization deserves it more. I might be a bit prejudiced here as MSCCN's Founder and CEO!"
