

## Parent-2-Parent Event, Scott AFB, IL

Deb Kloeppe, MSCCN CEO, was honored by the special invitation by Gen. Duncan J. McNabb, Commander, U.S. Transportation Command, Scott Air Force Base, Illinois, and his wife, Linda, to attend the "Parent-2-Parent" conference on Thursday, April 22, 2010. "General McNabb is the single manager for global air, land and sea transportation for the Department of Defense, so you can imagine the enormous responsibility his wife, Linda, carries on her shoulders - daily," said Deb Kloeppe.

"Mrs. McNabb conducted the workshop that advocates the educational rights of a military child within the public school system, which in turn preps the military child for entry into a civilian college or military academy. With all of the duties Linda is expected to perform, to take on an additional advocacy role regarding the military child and working military moms, is absolutely amazing to me!"

Linda McNabb and Deb Kloeppe will host a state-wide Missouri and southern Illinois workshop together to focus on *The Military Child and The Working Military Mom* on August 7, 2010. More details are to follow.
