

## Deb Kloeppele Keynote Speaker at Human Capital Institute's Summit

Deb Kloeppele, President and CEO of MSCCN, and Joseph H. Weiner, Vice President Business Development, Government Solutions, Kenexa, were invited to speak at the Human Capital Institute's 2010 Government Talent Management Summit in Reston, VA on September 22, 2010. Deb presented the following speech: "Military Staying Power - How do you best connect employers in all industries with men and women who have a military affiliation?" This session revealed resources for screening services, job postings, and resume search subscriptions, advertising, and participation in workshops and virtual trainings to delve into this talented, often untapped labor pool.

"I was so humbled by this particular invitation" said Kloeppele "There were some heavy hitters in my audience from the most profitable corporations in the world, along with every major government agency know to man. To my knowledge, the MSCCN is the only MilSpouse NGO to ever be invited to present their program's mission within HCI's Government HR Summit"
