

**International Military Spouse Network Presentation
Eglin Air Force Base
Education Center
July 22, 2010**

Attendee: Stacy Bayton

On Thursday, July 22, 2010, MSCCN Outreach Coordinator Stacy Bayton presented MSCCN services and benefits to attendees of the July International Military Spouse Network meeting held at the Eglin AFB Education Center from 9:00-11:00 a.m.

There were 11 military spouses in attendance at this meeting. The presentation included services that MSCCN provides, an overview of how to upload resumes and search jobs on our Kenexa gateway, and the latest on our gateway expansion that will take place in August. Following this presentation each applicant was allotted time to share their information and experiences with their job search so that they could receive one-on-one assistance on their individual career objectives.

Additional presentations that day included:

- Outline of education services for military spouses by Melissa King from Jobs Plus
- Stress management techniques and coping strategies shared by the staff of the Eglin Air Force Base Airman and Family Readiness Center.

Participation in the International Military Spouse Network meetings allowed MSCCN the opportunity to conduct one-on-one outreach with military spouses and veterans within Okaloosa County and share MSCCN services and benefits with individuals who are actively looking for employment. Secondly, but just as important, these meetings provide opportunities to network with affiliate organizations and individuals who also work in support of military spouses and veterans, providing awareness on new programs or benefits, and expanding opportunities for MSCCN to share their services and benefits with the military spouses and veterans from these new networks.
