

Jason Kelley

Vice President & Partner, Solutions & Design

Global Lead

IBM Global Business Services

Jason Kelley provides global leadership for the solutions, design, and innovation business in IBM's Global Business Services. He is responsible for working with enterprise clients to ensure IBM brings high valued business innovation that differentiate them from their competitors. His teams bring endless energy, creativity, and client focused outcomes for IBM clients around the world. Shaping, developing, and delivering unique business capability with the marriage of analytics, automation/robotics, Watson, and cloud technologies Mr. Kelley brings together the best of one IBM team.

Prior to his current role, Mr. Kelley was the CTO and design leader for the IBM Business Process Outsourcing business and previously had responsibility for managing IBM's Analytics and Big Data business in North America, China and Asia Pacific.

For more than 20 years Jason has provided collaborative executive business leadership inside and outside of the IBM company. Across the IBM company he has led efforts in IBM's pursuit of industry focused solutions in the IBM Software Group, Global Technology Services, Global Consulting Services and Sales & Distribution. His depth of skill and insight across multiple industries is consistent with the executive leadership roles he has held within and outside of IBM in the Public, Industrial, Retail and Services sectors. Additionally, as well as founding and leading a successful marketing services firm prior to joining the global team at IBM Mr. Kelley has continued to start new businesses within the IBM corporation.

Mr. Kelley is a Graduate of West Point, the United States Military Academy, where he enjoyed playing Football and serving as his class Vice President. With 13 with years of military service, as an Army Airborne Ranger, he values integrity, leadership, and loyalty. He has completed graduate work at the University of Tennessee, UCLA Anderson School of Business, and a earned an MBA from the Cox School of Business at SMU. With passion for creative thinking and invention, Jason contributes to IBM's ongoing leadership in innovation and patents as the holder of three U.S. Patents with others pending.
