Mr. Leonard is also an independent agent with the Sunteck Transport Group, a subsidiary of AutoInfo, Inc. with over 200 employees. Sunteck has more than 50 offices across the United States and Canada.

During his career in the transportation industry, **Mr. Leonard** has worked his way through the ranks, obtaining hands-on experience in all facets of daily operations including identifying and cultivating business relationships, customer service, quoting, carrier procurement, tracking/tracing, billing & collections. He specializes in Broker Training, Independent Agent Training and Mindset Training. Additionally, **Mr. Leonard** has served on a variety of boards and encourages his employees to get involved in community development.

In December, 2011, **Mr. Leonard** reached out to Deb Kloepfel and expressed a desire to show his appreciation to the military and their spouses by leading an effort to assist in finding employment for military-affiliated applicants within the transportation and logistics industry. Thus was born the Troops to Transportation & Logistics Program (T2TL) which connects qualified military-affiliated applicants directly to the over \$400 trillion dollar world of commerce. T2TL is not committed to any one organization, company or industry, and provides the ability to directly place wounded warriors, returning troops, veterans and their spouses/caregivers into an industry that has no limits to training and job placement locally, regionally or globally. **Mr. Leonard** is a driving force behind this effort and is working tirelessly to assist those who have given so much.
